

AuditXP course

Audits are not just a means to check compliance, they can form an ideal tool for pro-active safety performance monitoring via barrier based auditing. AuditXP integrates seamlessly with BowTieXP and allows you to focus your auditing resources where they are needed most. Moreover, it lets you aggregate, track and display those results in an entirely intuitive way.

This course is designed to equip participants with the skills required to create and distribute barrier based audits and then display the results onto BowTies using the AuditXP software platform.

Who is it for?

This course is for participants that are familiar with BowTie and want to build upon it as a strategy for achieving a risk based auditing objective. The course content is applicable to all types of risk and industries.

What does the course cover?

This course takes participants through the thinking behind how we create effective audits to provide the Safety Performance Indicators (SPIs) we need to drive informed management decisions.

The course also shows participants how to use the AuditXP software via hands on exercises which equip them with the skills to start using AuditXP right away.

Key skills gained during the course:

- How to identify SPIs
- How to draft effective audit questions
- How to create a barrier based audit
- How to use AuditXP software to create audits
- How to use AuditXP to aggregate audit results and display them on BowTie models

'Their trainers have great experience, delivering the training to a very high standard'

UK Civil Aviation Authority

'The BowTie training was clear, concise and right on target, with time for questions (and answers!)

Volotea

What format will the training take?

We use a mix of presentations, interactive exercises, case studies and guided workshops to make sure you get the most out of the day.

We only choose training venues that create a positive learning environment: natural light, good food and plenty of tea/coffee.

Prerequisites

Attendees should already have completed the Across Safety 2 day BowTie XP course or similar, or have a good working knowledge of BowTieXP.

How long is the course?

1/2 day

Pricing

£255 + VAT
